

# CorreLog Change Tracker Enterprise™

## Key Benefits

### Change and Configuration

**Management:** Track all changes to Servers, Routers, Switches, Firewalls and PC's, databases and key applications - back up the configuration of your entire infrastructure

**Compliance Automated:** Audit your systems for compliance with key legislated corporate governance policies using pre-defined templates to ensure devices are hardened and vulnerability-free

### Harden and Remove Security

**Vulnerabilities:** File Integrity Monitoring, Process/service blacklist/whitelist, Registry Key and Value tracking provides the most comprehensive compliance audit

### Automate Bulk Reconfiguration Tasks:

automate bulk scheduled updates and configuration changes, or roll-back configuration settings for devices to a previous version

### Application Performance and End

**User Experience Monitoring:** Check the performance of key applications from the user's perspective

### ITIL Best Practises for Planned Change

**Management Embedded:** - with full audit trail of who changed what and when

**Web Access, Real Time Reports:** Online Dashboard displays health, availability, change, and configuration and compliance status for your IT Infrastructure

Correlog Change Tracker Enterprise is an enterprise change and performance monitoring system designed to support any compliance initiative and assure service delivery across your entire network, server and PC infrastructure.

Enforcing configuration standards, maintaining security and satisfying compliance audit requirements used to be expensive, complicated and time consuming.

Not any more - Correlog Change Tracker is rated 5/5 by Secure Computing Magazine (June 2010)

- All major security standards and corporate governance policies understood and enforced automatically
- Fully featured network change and configuration (NCCM) management solution
- Forensic-detail configuration change audit trail provided for all server, workstation and network devices
- Cost-effective and easy to deploy and manage

"If a problem occurs on the network something has changed. Identify what has changed and you have identified the root cause of the problem!"

## What does CorreLog provide?

- Device Hardening Templates can be applied for all Security and Governance Policies, providing a fast Compliance Audit of all Devices
- Any breach of Compliance Rules reported, including File Integrity Changes, Registry Keys and Values, Processes and Service states
- Use Change Tracker Enterprise as an automated backup system for firewall and network device configurations, providing a complete log of changes made and the means to restore previous configurations automatically
- All platforms and environments supported, all devices and appliances
- Devices tracked for Configuration Changes, network devices can be re-configured in bulk automatically
- Planned Changes and all Unplanned Changes are detected

## About CorreLog, Inc.

CorreLog, Inc. delivers security information and event management (SIEM) combined with deep correlation functions. CorreLog's flagship product, the CorreLog Security Correlation Server, combines log management, auto-learning functions, neural network technology, proprietary semantic correlation techniques and highly interoperable ticketing and reporting functions into a unique security solution. CorreLog furnishes an essential viewpoint on the activity of users, devices, and applications to proactively meet regulatory requirements, and provide verifiable information security. CorreLog automatically identifies and responds to network attacks, suspicious behavior and policy violations by collecting, indexing and correlating user activity and event data to pinpoint security threats, allowing organizations to respond quickly to compliance violations, policy breaches, cyber attacks and insider threats. CorreLog provides auditing and forensic capabilities for organizations concerned with meeting SIEM requirements set forth by PCI/DSS, HIPAA, SOX, FISMA, GLBA, NCUA, and others. Maximize the efficiency of existing compliance tools through CorreLog's investigative prowess and detailed, automated compliance reporting. CorreLog markets its solutions directly and through partners. Visit [www.correlog.com](http://www.correlog.com) for more information.
